My Dear Friend,

I write to tell you how much we have all been pleased with your article in last weeks Standard on Mr Jackson's Will. A neighbour of ours sent Down the paper. It seemed to me that you did the work perfectly and that no change could have been for the better. I am only

surprised that the
Standard should have
inserted it. Any people
possessed of a grain of
fairness or reason must
I think be convinced.
As to the people who are
not convinced, after so
clear & exhaustive an
explanation, their state of
mind must be circumspect
- ible for they must be
either stupid, or sophistical
& hopelessly muddled.
You have done very
wisely in making this

reply. I have never seen the statements Mr Phillips made while you were in Europe.

I am delighted with our present warm weather & hope it may continue. It must be of service I think to Mrs Garrison.

Please give her my love & with kind regards to Frank

Believe me
ever affectionately yours
Anne Warren Weston
